Licensed commercial unit for sale in the community

Area: 90 meters

Finished

Available from April 2024

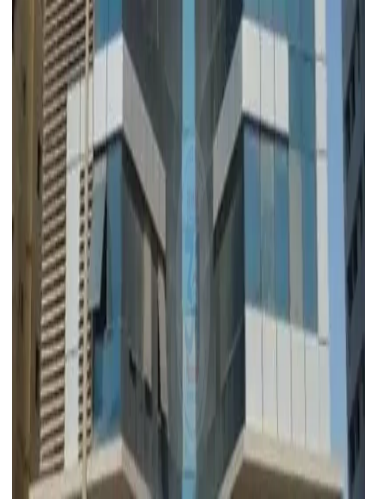

Required: 7,500,000 pounds

Commercial license

The Fifth Settlement represents a fertile environment for business prosperity and development thanks to its distinctive geographical location and population density, as it is one of the fastest areas in terms of the rate of construction due to the increased demand by individuals for it, which in turn leads to an increase in the demand for it by merchants and investors as well. Individuals' demand for shops in the Fifth Settlement for sale varies according to several factors such as geographical location, prices and spaces.
